

JOY YAKUBU

Lagos, Nigeria * Yakjoy6@gmail.com * 234 7084404846 * <https://github.com/Joeyakid> * [Vite + React](#)

Career Profile

A meticulous and technically adept software developer with practical experience in front-end development, API integration, and responsive UI design using React and Tailwind CSS. Knowledgeable in collaborative coding, debugging, and deployment workflows with Git, Vite and Vercel. Aiming to create reliable, innovation and user-centered software solutions.

Skills: Testing, Javascript Frameworks, Typescript, API Integration, Version Control, CSS Frameworks, Responsive Design, Critical Thinking

Work Experience

Graduate Trainee, Sail Innovation Lab, Lagos, Nigeria | March 2025 to September 2025

Achievements and responsibilities

- Built dynamic web forms to capture and display data, enhancing interactivity.
- Developed product pages with React and Axios for seamless API integration.
- Collaborated with a team to deliver a real-life working project currently in use (Zyra HR).
- Designed Responsive layouts with Tailwind CSS, improving user experience across devices.
- Managed projects with Vite and deployed on Vercel, Netlify and gaining hands-on hosting experience.
- Utilized Git & Github for version control and debugging, ensuring smooth workflow and efficient problem-solving.

Educator, Lighthouse International Schools, Lagos, Nigeria | February 2024 to December 2024

Achievements and responsibilities

- Created engaging lesson plans classroom activities personalized to young learners.
- Collaborated with colleagues to deliver well-rounded educational experience for students.
- Assessed pupil progress and provided feedback to support individual learning
- Maintained a safe, caring and structured classroom environment.
